Assignee:	Nico Schottelius	**% Done:**	0%
Category:		**Estimated time:**	0.50 hour
Target version:			
PM Check date:			

Description

Shortish session generally addressing these questions:

- What is cdist?
https://cdi.st is a cross-platform provisioning system actively maintained and developed.

- Why cdist? (as opposed to X, Y, Z)

- How to cdist?

- What's this "python types" thing we keep hearing about?

- Is templating decent?

History
