History

#1 - 06/12/2022 08:03 PM - Nico Schottelius

- Assignee set to Mondri Ravi

Ping Mondri:

- Can you create the dynamicweb entries and test the flow?
- We should name the image "FreeBSD 13.1 ZFS"

#2 - 06/13/2022 07:11 AM - Mondri Ravi

Checking now

#3 - 06/13/2022 07:56 AM - Mondri Ravi

@Nico_Schottelius there seems to be public-* (dualstack) template and no ipv6only template. So, I created one, identical to dual stack but with ipv6only nic.

Its called ipv6only-FreeBSD 13.1-ZFS

The dual stack works on staging.

Testing IPv6only now.

#4 - 06/13/2022 08:27 AM - Mondì Ravi

Just finished the testing. The templates work fine. Let me know if we want to put them on production [@Nico_Schottelius](#)

#5 - 06/23/2022 01:06 PM - Nico Schottelius

Mondì, please go ahead - very soon would be good as people on Twitter are talking about is/FreeBSD atm

#6 - 06/23/2022 01:41 PM - Mondì Ravi

Putting this on production now.

#7 - 06/23/2022 02:28 PM - Mondì Ravi

- *Status changed from In Progress to Feedback*
- *Assignee changed from Mondì Ravi to Nico Schottelius*

freebsd 13.1 zfs is now on production.

- datacenterlight.ch/{en-us,de} landing and hosting pages
- ipv6onlyhosting landing and hosting pages

#8 - 06/23/2022 04:15 PM - Nico Schottelius

- *Status changed from Feedback to Closed*

Looks good to me, closing!
