

hack4glarus-2023-summer - Task #11869

Migrate existing partially encrypted Arch Linux to new 4TB SSD ☐☐

07/08/2023 02:41 PM - Jörg Berkel

Status:	Closed	Start date:	07/08/2023
Priority:	Normal	Due date:	
Assignee:	Jörg Berkel	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
PM Check date:			
Description			
This time with a passphrase instead of insecure keyfile initramfs.. with /boot also encrypted			
https://wiki.archlinux.org/title/Dm-crypt/Encrypting_an_entire_system#LVM_on_LUKS			

History

#1 - 07/09/2023 08:46 AM - Jörg Berkel

- % Done changed from 60 to 80

almost up and running-- had a wrong UUID in there.
Only some gfx-modprobe issues because of missing module

#2 - 07/09/2023 07:51 PM - Jörg Berkel

- Status changed from New to Resolved

- % Done changed from 80 to 100

#3 - 08/06/2023 09:50 AM - Nico Schottelius

- Status changed from Resolved to Closed
