Description <p>I propose we change "Currently its not possible to make payments." into "Your credit card was declined." and add additional message if there's anything to be added, according to the error type.</p> <p>If there's something the user can do to avoid the error again on retry we should specify.</p> <p>Please add appropriate additional messages for error types we have in https://github.com/ungleich/dynamicweb/blob/master/utis/stripe_utils.py#L22</p>
