

Open Infrastructure - Task #6262

[user request] Warn users what happens on VM delete / make it more clear to users

12/25/2018 07:46 PM - Nico Schottelius

Status:	Rejected	Start date:	12/25/2018
Priority:	Normal	Due date:	
Assignee:	Mondi Ravi	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
PM Check date:			
Description			
Today we got a message via twitter (see below) that the user did not expect deleting to kill his "resources". We should do something to address this.			
Mondi, let's discuss internally how to solve this mid-term and meanwhile I will talk to the customer.			
Options I see from top of my head:			
<ul style="list-style-type: none">• Introduce hourly model (would be good in any way)• Have double/triple confirm• Have some kind of "bucket" / "coupon" mode (probably extended version of the hourly model)
