Open Infrastructure - Task #6467

Add 2FA as an optional login security measurement

02/15/2019 10:05 AM - Nico Schottelius

Status:	Rejected		**Start date:**	02/15/2019
Priority:	Low		**Due date:**	06/30/2019
Assignee:	William Colmenares		**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
PM Check date:	03/19/2019			

Description
I suggest to use ungleich-otp for this in one or the other way. Maybe we create a new realm for users that want 2FA (like ungleich-customer-2fa) and expose the seed as a barcode (standard approach for google authenticator apps) to the user [once? always when logged in?]
