Target version:			
PM Check date:	06/23/2019		

Description

Create a mini flask app inside a sub directory in ungleich-otp that:

- Users has one public route and one route that is protected by ungleich-otp.
- Add a configuration option for which realm to use for protection

History

#1 - 06/05/2019 08:17 PM - William Colmenares
