PM Check date:	
Description Steps to reproduce: <ol style="list-style-type: none">1. Choose a VM to buy at staging/dev servers for https://datacenterlight.ch2. Register as a user and input card details in the "Make payment page". Ensure that the card leads to a payment related error.3. Add a valid SSH key in the next page4. In the order confirmation page, press "Place Order"5. Order fails and user is redirected to "Make payment page" Observed behavior: Payment fails and the user is redirected to the card input page without proper error message Expected: Inform the user about the error message from the payment gateway
