

Open Infrastructure - Task #7502

Create script to create new / updated FreeBSD image for OpenNebula

12/19/2019 09:55 AM - Nico Schottelius

Status:	Closed	Start date:	12/19/2019
Priority:	Normal	Due date:	
Assignee:	Timothée Floure	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
PM Check date:			

Description

- 12.1 is out for a while
- The original image was made by [@Kamila Součková](#)
- The logic is basically the same as the other images, however there is no deb/rpm for freebsd
 - I am not sure where she added the necessary changes (dns, network, ssh keys, resize)
 - She might be able to give you some pointers on chat
- Script should go into ungleich-tools, too
- Expected to work only under FreeBSD

History

#1 - 07/21/2020 11:03 AM - Timothée Floure

- Status changed from New to Feedback

Script is committed to ungleich-tools, generated will soon be made available to DCL customers by [@Mondi Ravi](#).

#2 - 07/25/2020 09:35 AM - Timothée Floure

- Status changed from Feedback to Closed

Deployed.
