Open Infrastructure - Task #7507

Monitor upstream releases / security advisories

12/19/2019 07:41 PM - Timothée Floure

Status:	Rejected		**Start date:**	12/19/2019
Priority:	Low		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
PM Check date:				

Description

We deploy some application directly from upstream VCS, which means the underlying distribution does not provide us with (security) updates: we have to do it ourselve.

=> It's 100% manual/human for now. Perhaps we could consume events from release-monitoring.org? What of CVEs?

History

#1 - 01/02/2024 02:06 PM - Nico Schottelius

- Status changed from New to Rejected
