Open Infrastructure - Task #7602

Align dynamicweb / opennebula with uncloud

01/13/2020 12:01 PM - Nico Schottelius

Status:	Rejected		**Start date:**	01/13/2020
Priority:	Normal		**Due date:**	
Assignee:	Mondi Ravi		**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:				
PM Check date:				

Description

Stuff that we can & should export from our current setup to etcd in an uncloud alike format:

Prefix for everything is /dynamicweb-opennebula

- user public ssh keys (/dynamicweb-opennebula/user-keys)
- List of VMs (/dynamicweb-opennebula/vms/$KEY)
    - $KEY = vmid from opennebula
    - content: ip addresses, owner, attached disks (name + size)

We can already use this as a base to phase in self managed reverse dns entries.
