Open Infrastructure - Task #7635

Create a simple page explaining DNS64/NAT64 for customers

01/20/2020 03:06 PM - Nico Schottelius

Status:	Closed	**Start date:**	01/20/2020
Priority:	Normal	**Due date:**	
Assignee:		**% Done:**	0%
Category:		**Estimated time:**	0.00 hour
Target version:			
PM Check date:			

Description

- So that we can reference it in support tickets.
- Include exapmles, how to reach github, show the AAAA record resolution, explain how it works if there is already IPv6 for a domain

In simple words (maybe +graphviz/dot image showing how it works)

History

#1 - 02/10/2021 09:03 AM - Timothée Floure

- Assignee deleted (Timothée Floure)

#2 - 02/11/2021 01:25 PM - Nico Schottelius

- Status changed from New to Closed
